

REMARKS

Claims 1 to 20 were pending in the application at the time of examination. Claims 1 to 20 stand subject to election/restriction.

The action indicated that restriction to one of the following inventions is required under 35 U.S.C. § 121:

- I. Claims 1 to 4, 6 to 9, 11 to 14, and 16 to 19; and
- II. Claims 5, 10, 15, and 20.

Applicant elects Group I claims, Claims 1 to 4, 6 to 9, 11 to 14, and 16 to 19, with traverse.

The action stated in part "Inventions I and II are related as subcombinations usable together in a single combination." This is error because the Group I claims are directed to a process for making an obfuscated key decryption program and Group II claims are directed at a process of using the obfuscated key decryption program made by the process of the Group I claims. The MPEP draws distinctions between subcominations and processes of making and using and delineates different requirements that the Examiner must show in each case. Further, the claims must read as a whole.

Accordingly, since the characterization as subcombinations is incorrect, a showing that the process of making and the process of using are independent and distinct has not been made, as required by the MPEP. Therefore, the restriction requirement is improper. Applicant respectfully requests reconsideration and withdrawal of the restriction requirement.
